

Take warehouse efficiency to a new level with the MC9400/MC9450

Third Party Logistics (3PL)

Keeping up with the world's 24x7 economy isn't easy. Order and shipping volumes increase every day, along with delivery timeframes. E-commerce is creating new opportunities for warehousing and third-party logistics (3PL) providers. Everything needs to move faster—and with the MC9400/MC9450, it will. The ultra-rugged MC9400/MC9450 mobile computer has what it takes to turn manual processes into efficient, automated operations, so you pick up the pace and achieve new productivity levels to meet the ever-increasing demand.

Move goods in, through and out of your warehouse faster and more efficiently with the MC9400/MC9450.

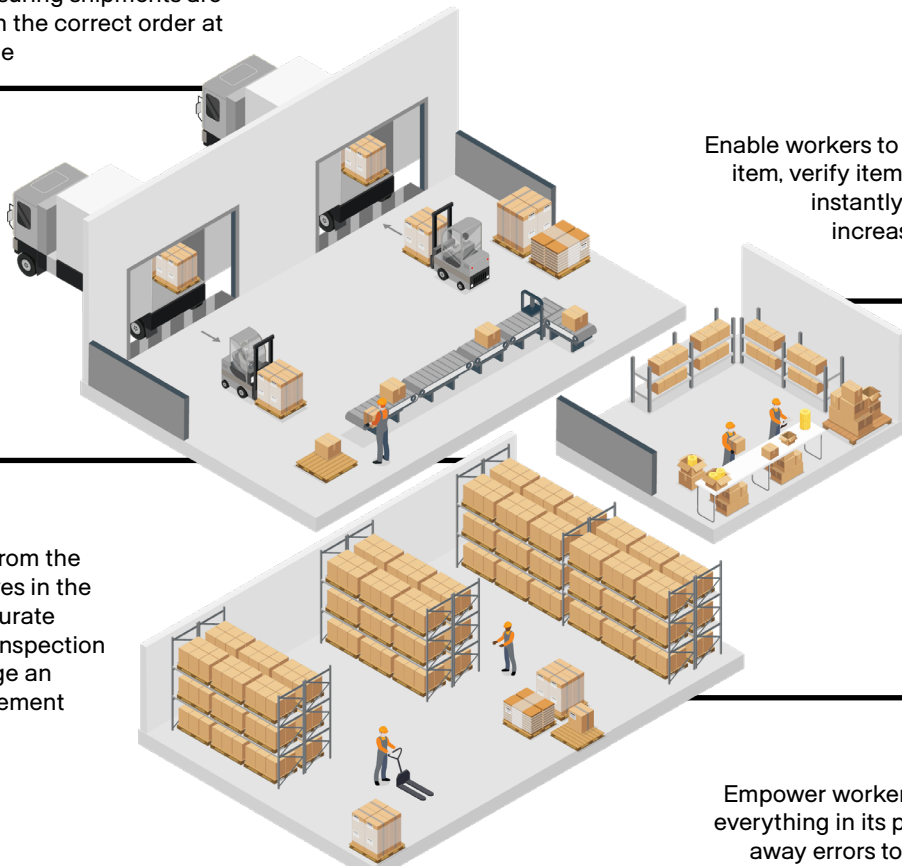

Where can you put the MC9400/MC9450 to work in your operations?

Cross-docking

Ensure the efficient and accurate movement of goods, so drivers don't experience delays while making pickups and deliveries; keep customers happy by ensuring shipments are put on the right trailer in the correct order at the right time, every time

Picking

Enable workers to find the best route to each item, verify item accuracy on-the-spot and instantly update product inventory; increase order fulfillment without expanding your workforce

Receiving

Get real-time visibility from the moment inventory arrives in the warehouse; ensure accurate product identification, inspection of shipments for damage and efficient product placement in the warehouse

Put-away

Empower workers to safely and quickly put everything in its proper place; eliminate put-away errors to ensure flawless fulfillment

Turbo charge your warehouse operations with all the right features

The next evolution in the ultra-rugged MC9000 Series—now with more power, advanced scanning, Wi-Fi™ 6E and 5G

Cutting-edge features in the MC9400/MC9450 enable faster, more efficient workflows from dock to stock so you can meet the skyrocketing demands of today's 24x7 economy

Next generation platform

2.5x more processing power and 50% more RAM (Compared with MC9300) handles all your WMS, ERP and other apps simultaneously

No more lost devices

Easily locate and find missing devices—even if they are powered down or the battery is depleted—with optional BLE battery and Device Guardian license from DNA for Mobile Computers

Extended range scanning

Capture barcodes in hand to over 100 ft./30.5 m away; indoors and outside; green laser aimer is up to 7x more visible than red

Wi-Fi 6E

Instant application response times; quadruple the bandwidth and capacity, triple the speed and up to triple the available spectrum than Wi-Fi 5

Private/Public 5G

If Wi-Fi doesn't reach the loading dock, curbside, or backroom, workers can count on 5G data to stay connected to the apps and information they need

Virtually indestructible

Most rugged specs for maximum uptime; 12 ft./3.65 m drops to concrete; dust tight and waterproof

High-res camera

Takes highly detailed photos, ideal for documenting incoming damaged shipments, customer returns, merchandising tasks and more

Instant collaboration

Push-to-talk and secure messaging with Workcloud Communication Suite

Identity Guardian

Biometric facial recognition gives workers easy device access for shared devices; faster access without typing and eliminates the risk of shared or compromised passwords

Process automation

Capture shipping container identification, license plates and more with the press of a button

Well-loved ergonomics

Gun-style design lets workers move and perform tasks more quickly, with more comfort

Backwards compatibility

Use all the same accessories and chargers as drop-in replacements for the MC9300

A model for every environment

Make sure your mobility solution doesn't stop where your cold chain starts.

Standard model for general ultra-rugged use

Freezer model for freezers and outdoors winter weather

Non-incendive model for use when hazardous materials are present

A heated touch panel ensures continuous visibility during freezer operations and heavy condensing conditions. A freezer-rated battery gives cold chain workers battery power they can trust during the longest they can stand. And the heated scanner exit window ensures reliable data capture as workers move in and out of freezer areas.

* Non-incendive models available in North America only

Drive efficiency into your warehouse operations with the MC9400/MC9450.
