

# Zebra Intelligent Cabinets + Device Tracker

## Smarter Device Management Starts Here

Datex and Zebra Technologies bring you a unified approach to securing, managing, and tracking your mobile computers and scanners so your teams stay productive, your assets stay protected, and your operations stay on schedule.

## Why Intelligent Cabinets?

Zebra Intelligent Cabinets automate device control, so every shift starts with full visibility and accountability.

## Key Benefits

### Real-Time Accountability

Know exactly who took what device and when. Reduce shrink, loss, and unreturned equipment.

### Automated Audits

Accurate usage logs, alerts, and reporting without the labor burden.

### Centralized Storage & Charging

Optimize battery life and ensure every device is ready at shift start.

### Scalable Options

From compact lockers to full-size cabinets configured around your fleet size and footprint.

### Faster Check-In / Check-Out

Badge-based access speeds up employee workflows and eliminates manual tracking.

### Secure Access Control

Role-based permissions and Zebra's locking mechanisms ensure proper usage.

# Why Device Tracker?

Zebra Device Tracker gives your team the power to locate misplaced, abandoned, or “walked away” devices in real time.

## Key Benefits

### Find Lost Devices Fast

Map-based app shows last known location and proximity guidance (“hot/cold”).

### Cloud-Based Management

Works seamlessly with Zebra mobile computers and integrates with Zebra Mobility DNA tools.

### Battery Health Visibility

Monitor status so devices don’t die mid-shift.

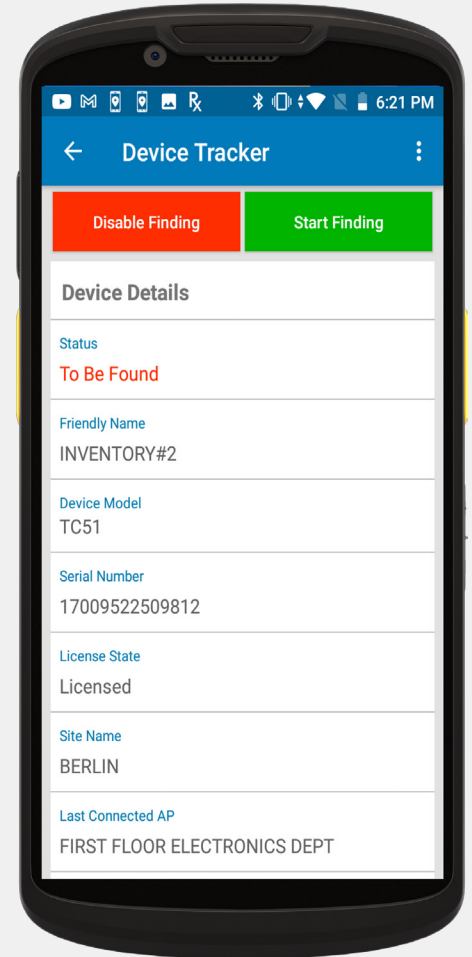

### Reduce Replacement Costs

Fewer device write-offs from loss or misuse.

### Alerts & Notifications

Get notified when device goes offline, is left unattended, or exits geofenced areas

## Ideal For

Warehousing & Logistics

Distribution Centers

Manufacturing

Retail Back-of-House

Field Service

3PL & Transportation

## Let’s Build a Smarter, More Controlled Device Fleet

Whether you’re scaling a warehouse or eliminating device loss across multiple sites, Datex and Zebra deliver a proven, secure, end-to-end solution.
